

### EZU Series Pneumatic Lift Tables

| Model Number Format        |                             |
|----------------------------|-----------------------------|
| Series "EZU"               | <b>EZU - 15 - 48048 - R</b> |
| Pneumatic Lift Table       |                             |
| Capacity                   |                             |
| 15 = 1500 lbs. @ 80 p.s.i. |                             |
| Platform Size              |                             |
| 48048 = 48"l x 48"h        |                             |
| R = rotating               |                             |

#### Description

Bishamom EZU Series Pneumatic Lift Tables are the convenient way to use air to raise, lower, and position a load. Using air instead of electrically driven hydraulics reduces maintenance. The elimination of electrical components also eliminates the risk of sparks in applications where sparks can be hazardous.

#### Applications

The EZ UP is the ideal lifting and work positioning solution wherever such a product is necessary and shop air is convenient. Lift tables, in general, position the work closer to the worker, reducing the risk of injury, worker fatigue, or the chance of damage to sensitive products. Typical applications are in manufacturing (especially the automotive industry), processing and distribution.

#### Standard Features

- \* Firestone Airstroke Actuator raises and lowers the table platform to vertically position the load to the desired height
- Firestone tests each Airstroke Actuator and warrants them for life against workmanship or material defects
- Durable and attractive polyester powder coating adds life and superior corrosion resistance to the finish
- Heavy-duty structural steel construction with rugged base frame
- Entrapped rollers on base for added stability
- Dual attached maintenance blocks
- Rotating models feature a secured center pivot with ball bearing that provides smooth, even rotation
- High quality 3 position hand lever controls allows easy operation
- Clean design with minimum of maintenance needed
- Easily transported with fork truck

#### Advantages

- Exceptional features generate the following advantages:
- Years of trouble-free use
  - Products can take the hard use of rugged industrial environments
  - Smooth, even rotating platform option improves worker efficiency
  - Requires virtually no maintenance
  - Fork truck transportable without the need for additional options

#### Limited Warranty Policy

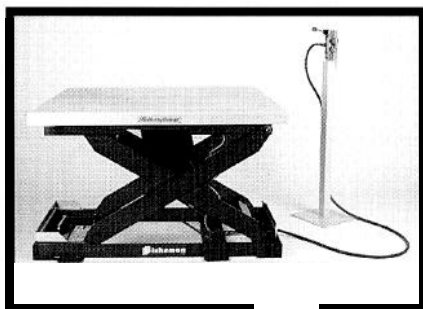

Lifetime warranty of Firestone Air Actuator. 1 year replacement on materials and manufacturing process. Please refer to actual warranty for specific details.

Specifications are subject to change without notice.
