

Molded Fiber Glass Tray Company

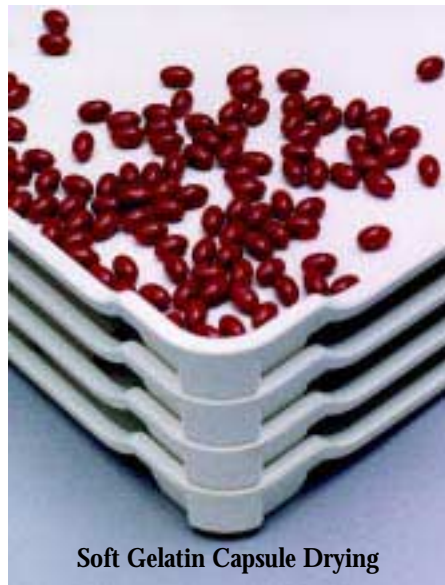

Contact Indoff at www.mh-partners.com

Basic Properties

- **Excellent dimensional stability and load carrying capacity without creep or distortion** at temperatures from -60° to +250° F (continuous) or +300° F (intermittent).
- **Dimensional consistency for machine integration and robotic applications.**
- **Not affected by radiation.**
- **NSF and UL listings.**
- **Variety of formulations:** **Standard formulations** are unaffected by detergents, mild acids and alkaline solutions in the pH range of 3.0 to 10.0. Chemical resistant formulations are available to perform in the pH range of 3.0 to 12.0. **ESD/Static protection** in the range of 10^3 to 10^{11} Ω per square resistivity. (See MFL-146 for complete details.) **Also formulations resistant to autoclaving, degreasing and flame retardant.**

Vial Handling Boxes for filling machines

Soft Gelatin Capsule Drying

Casting Box

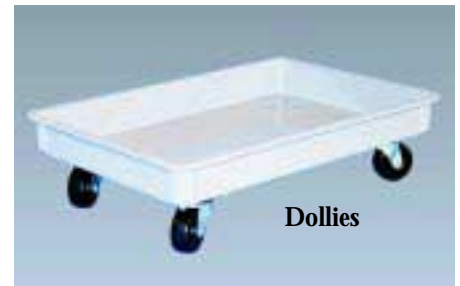

MFG/Tray Offers Solutions:

Trays, pans and containers for:

- Electronic assembly
- Pharmaceutical drying
- Confectionery processing
- Food processing
- Automatic Storage & Retrieval and conveyor Systems
- Hot casting and metal parts processing
- Chemical processing
- Cryogenic parts handling
- Irradiation processing
- And More

Value Added Capabilities

Modifications are offered to adapt an existing product into something that more completely meets your specific needs. Standard modifications such as hand holes, drain holes, or the addition of drop handles, grommets, finger holes, cardholders, or casters to make a dolly from a tray or cover. The excellent dimensional stability of reinforced composites allow the material to be cut, sawed, or drilled without destroying the structural integrity.
